Up, close and personal with your ride

Frame

T-Rex Air comes with high tensile FeC frame that promises comfort along with a chic look. The top tube is streamlined at the bottom to make journeys relaxing for all types of riders. It is so stable, that you can balance it on rough roads as smoothly as plains.

Battery

The 10.2Ah removable battery is made to keep you in charge of all your travels, near or far. Providing a boost of power along with the motor to every pedal, it helps you reach your destination fresh and fast.

Display

The M5 LCD display is a state of the art system that displays all your riding information on the go. Switch between modes and adjust PAS levels with ease on the road. What's more is- It's got you covered, even in rain showers.

Suspension

T-Rex Air is shock proof with a 100mm front fork suspension that has lock-in lock-out feature enabled. Thus, no more playing whack a pothole as it goes smooth over small pits and puddles on every journey.

Derailleur

The 7-Speed shimano tourney derailleur makes shifting between speeds a breeze. Whether you're trudging uphill or traversing downhill, with T-Rex Air every journey is so smooth it feels like flying.
