

Innovation Meets Adventure

Conquer the trails, the urban jungles, the everyday life with the T-Rex Pro!

Handlebar Console

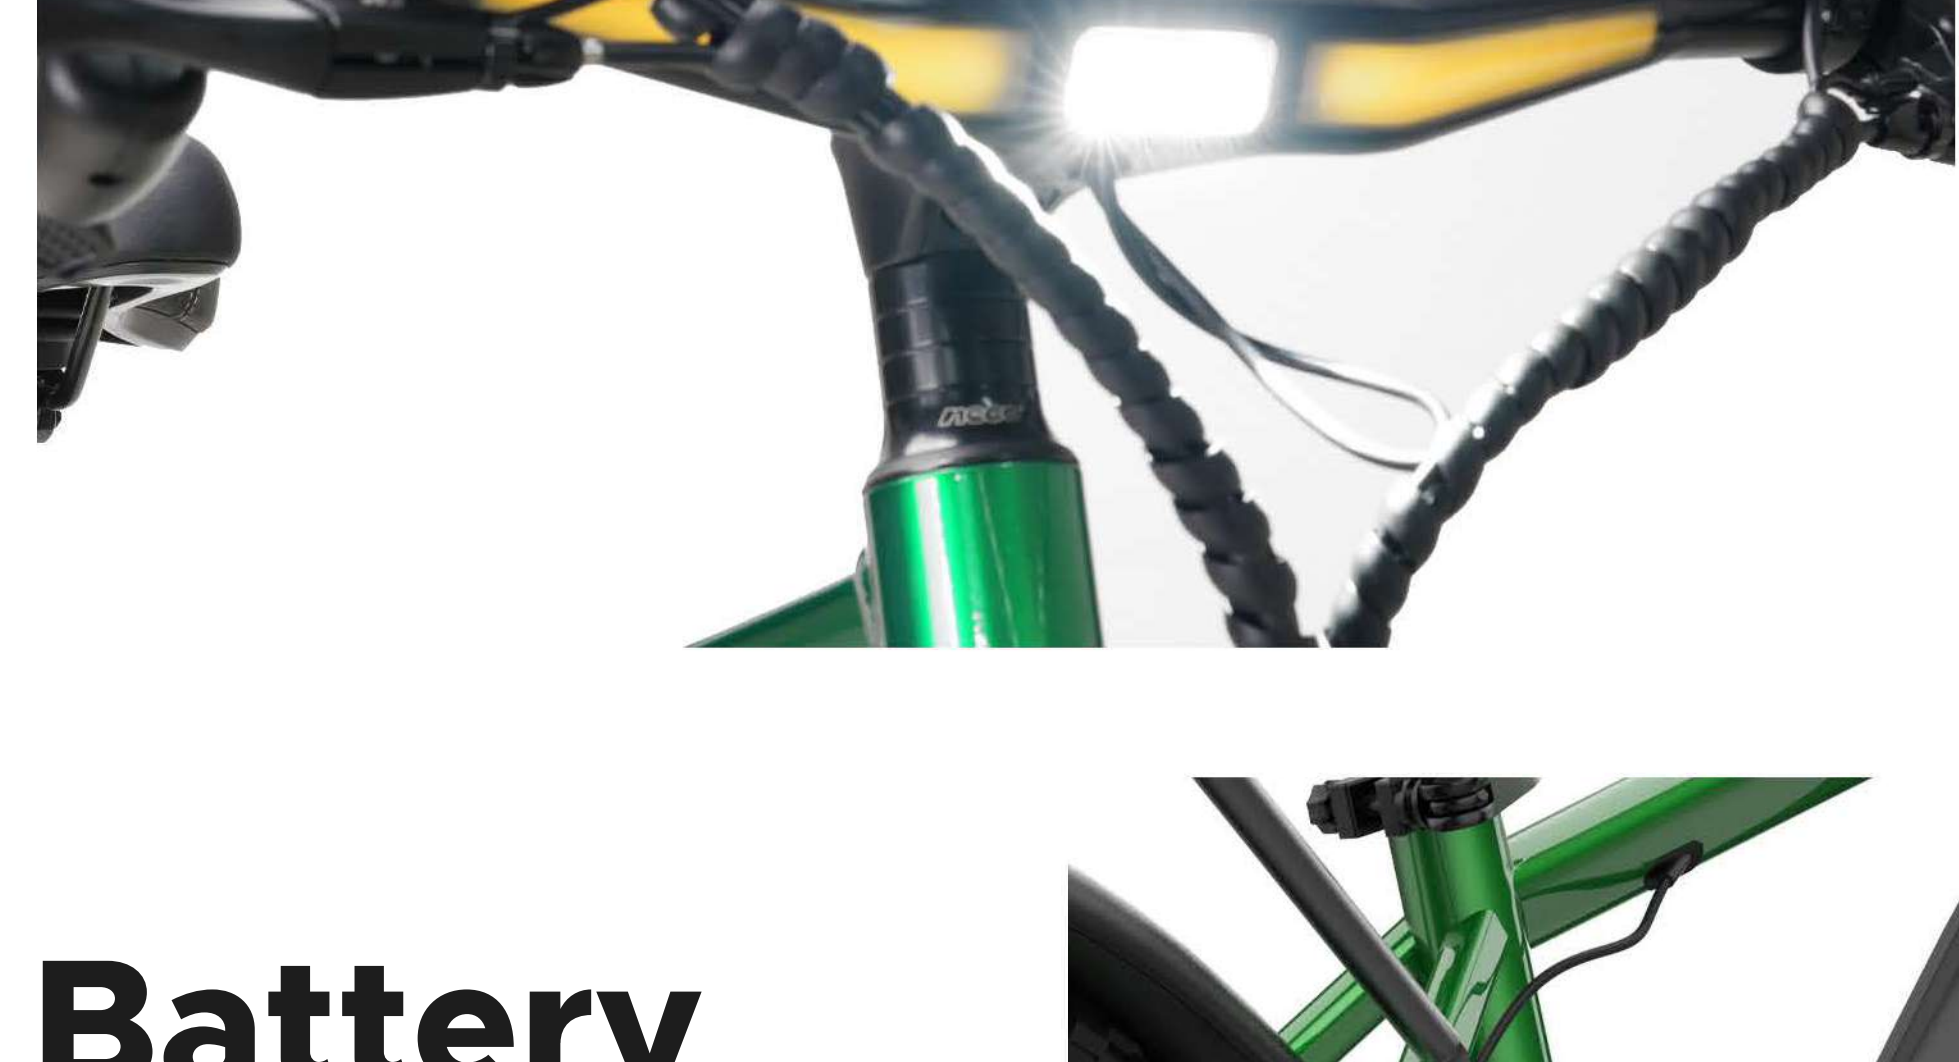

-Display

Stay informed on your ride with the sleek Cluster i13 Handlebar Integrated Display, offering real-time insights on the go.

-Headlight

Comes with integrated headlight and horn, featuring high and low beams for added safety and visibility on every adventure.

-Indicators

Navigate with confidence using integrated side indicators, allowing you to signal turns and merges effortlessly, making every ride safer.

Battery

Keep the adventure going with the power-packed 36V 13Ah removable battery, providing long-lasting power and easy charging for extended rides.

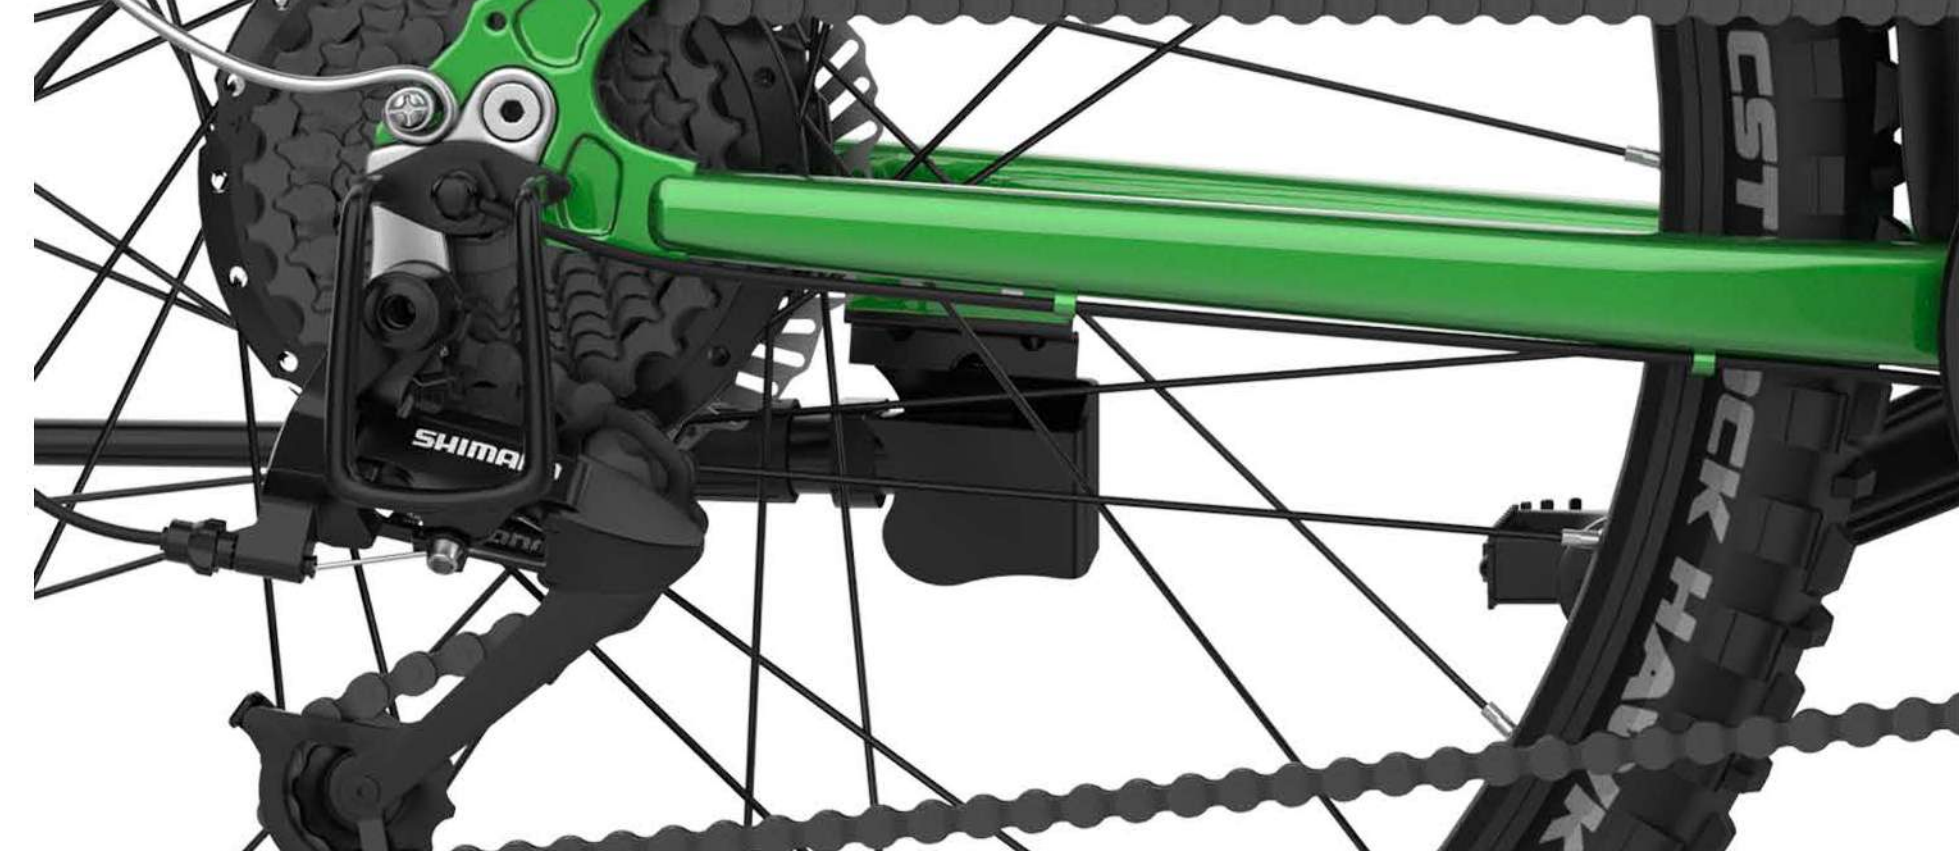

Frame

Experience effortless rides with the aluminium alloy 6061 frame, engineered for exceptional durability and a smooth, reliable journey.

Taillight

The taillight features bright red brake lights for extra safety. Additionally, the indicators provide a clear flashing signal for turns, enhancing visibility on the road.

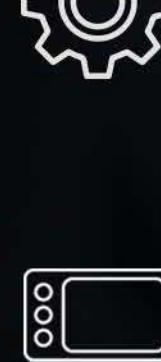

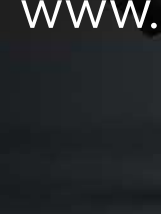

Derailleur

The Shimano Altus 7-speed drivetrain delivers reliable performance, tackling diverse terrains with ease. Smooth rides just got smoother!
