- Lowest rates apply only during BBD/GIF. Prices could be reduced before the main event too, but the lowest would be only during the main event which would start from 23<sup>rd</sup> Sep'25. Other event days, rates would be increased and remain steady until 15 Oct or end of the event whichever is later.
- Marketplace-funded discounts and price matching: Any extra discount funded by the marketplace will be matched only if the customer submits a dated screenshot clearly showing the effective price for the same SKU/variant on the marketplace during the event. Without this proof, CN/price support will be as per the published rates.
- Bank offers, payment method cashback, cart-size promotions (e.g., "Buy for ₹25,000 and get ₹5,000 off"), and "Buy More Save More" schemes are excluded from CN/price matching.

4. Dealers will be eligible to receive both the incentive and the full CN for the same event-day transactions. Hence, units sold with CN support during the event days will be counted toward the incentive scheme.
5. CN may fluctuate based on online prices during sale periods. Please follow the thread to keep an update on the event days.
6. Warranty registration is mandatory to avail CN.
7. Rates are aligned to Amazon/Flipkart marketplace funding assumptions.
8. Discount on Dope is included as launch offer; it will increase by ₹500 for the remainder of the event.
9. Accessories would be on deal prices and are not included in this list. There will be no CN as well for the same.
10. Ranger is not considered for event pricing/CN in this period.
11. The prices listed above are for representation purposes only. The offer prices should be advantageous for the customer. The final Credit Note (CN) will be calculated based on the dynamic offer prices.
12. EM will verify the GST invoice with the end customer. The CN will be issued upon successful verification. Reconciliation will be conducted every weekend.

---

**Example 1:** Day 1 of sales: X1 offer price is Rs. 23,899 then the CN will be  
 $\text{Rs. } 24,999 - \text{Rs. } 23,899 = \text{Rs. } 1,100$ . Final CN Rs. 1,100

**Example 2:** Day 2 of sales: X1 offer price is Rs. 24,499 then the CN will be  
 $\text{Rs. } 24,999 - \text{Rs. } 24,499 = \text{Rs. } 500$ . Final CN Rs. 500

**Example 3:** Day 3 of sales: X1 offer price is Rs. 24,999 then the CN will be  
 $\text{Rs. } 24,999 - \text{Rs. } 24,999 = 0$ . Thus, there will be no CN.
